

Class Rooms

Located in the Ukrainian jewel of Kyiv, Senator Hotels and Apartments offers luxury and internationally recognised accommodation

WHAT?

Senator Hotels and Apartments offers a variety of fully serviced rooms and apartments (107 in total) in Ukraine's stunning capital, Kyiv. There are three apartment hotels – Senator City Center, Senator Victory Square, and Senator Maidan – located in the downtown area of the city in historical buildings that tell a story about Ukraine's fascinating past. Each newly renovated accommodation benefits from 24-hour reception, English-speaking staff, a full cleaning service, and a range of other amenities that ensure Senator's guests enjoy a memorable stay every time they visit. In fact, every third guest returns – the numbers speak for themselves.

WHERE?

Each of the three residences originally belonged to prosperous Kyiv-based merchants and were built as expensive mansions – they have retained their grandeur but now boast contemporary hi-spec features. Senator City Center is located right next to both the stunning St. Volodymyr's Cathedral and Botanical Gardens, Senator Maidan holds court in the heart of Kyiv just a stone's throw from Independence Square, while Senator Victory Square is in a prime business district. They all offer something a little different while maintaining the same style, quality, and comfort the Senator brand is famous for.

Kyiv is a hidden gem in Eastern Europe yet to be infiltrated by over-tourism. Golden domes and endless spires dominate the cityscape, which is dissected by the iconic Dnipro River, while the city has several sprawling parks. Kyiv is also bursting with culture and nightlife – it's a city that has embraced capitalism while celebrating its rich history. There's an abundance of museums, galleries, bars, and charming coffee shops, and Senator's central accommodation is the ideal base for exploring.

WHY?

Senator Hotels and Apartments has something for every type of traveller – whether you're a solo businessman or family – from single rooms to two-bedroom apartments that can be rented for extended periods, several months even. Features like fully equipped kitchens, spacious bathrooms, washing machines, and writing desks means each accommodation is a home away from home where guests can find the ideal work-life balance.

Senator City Center, the very first professionally serviced apartment hotel in Kyiv and the CIS, opened its doors in May of 2005. Its success led to the chain's second property, Senator Victory Square, being unveiled just two years later. The newest addition to the hotel collection, Senator Maidan welcomed guests in 2013.

Reasonable prices, award-winning and internationally recognised accommodation, unrivalled service, and historical venues updated with contemporary features ensure that Senator stands out from the crowd.
